   -
   -
7. Solid to void ratio (approximately)? (solid %....., void %.....)
8. Maximum walking distance from services? (…….)
9. Congestion locations in the neighborhood?
   -
   -
   -
10. Any changes in Development Codes in the past 5 years?
    -
    -
    -
11. Any applications of Overlay Zoning? (yes – no), How?
    -
    -
12. Any Greyfield? (yes – no), where in the neighborhood?
    -
    -
13. Any Greenfields? (yes – no), where in the neighborhood?
    -
    -

14. Any vacant areas? (yes – no), where in the neighborhood?
    -
    -
    -
15. Pedestrian condition?

    ……
    ……
    ……

1st principle: Mixed Land Use

policy 1/ any state funds? (to support people to live where they work)

……
……

policy 2/ (smart growth codes) VS (conventional development codes) adoption?

……
……

policy 3/ any innovative tools that encourage Smart Growth? (Overlay Zoning, PUDs...)

……
……

policy 4/ any facilitation for financing mixed-use properties? (mixed-use infill projects or mixed-use greenfield projects)

……
……

policy 5/ the zoning relies on Type of Uses, or Building Type?

……
……

policy 6/ any applications of Flex Zoning?

……

……

policy 7/ any existence of declining (shopping malls) or (strip commercial streets) to be converted into mixed-use development?

……

……

policy 8/ is mixed-use at an appropriate scale in the neighborhood?

……

……

policy 9/ any examples of single-use commercial or retail development profited into walkable mixed-use? (any declining retails to take advantage from?)

……

……

policy 10/ is the community rewarded for balancing between jobs and housing? (or any chance to be rewarded up on that balance?)

……

……

2nd principle: Compact Building Design

policy 1/ any Public Meetings or Education towards citizens about Density or Compact Building?

……

……

policy 2/ is ready access to open spaces provided?

……

……

policy 3/ On-Street parking or Off-Street parking available?

.....

.....

policy 4/ is Building Scale appropriate to Street Type?

.....

.....

policy 5/ any State-Level Design Standards or codes that encourage Compact Building? (that can be adopted by the community)

.....

.....

policy 6/ any Density Bonuses to encourage increasing floor-to-area ratio (FAR)?

.....

.....

policy 7/ any Sense of Privacy through the design of homes and yards?

.....

.....

policy 8/ any Design Review Board to ensure desirable design standards ?

.....

.....

policy 9/ any Financial Incentives that encourage high density development ?

.....

.....

policy 10/ any supports from local community towards Regional Planning efforts ?

.....

.....
